PROFESSIONAL PROFILE

IT Professional holding a degree in Information Technology Management and a Bachelor's in Business Administration, with solid experience in ERP systems, Oracle databases, and data modeling. Focused on the analysis, maintenance, and support of critical systems, emphasizing information quality, performance, compliance with business rules, and continuous process improvement.

Possesses an analytical profile with a systemic vision, acting as a liaison between technical and business teams. Seeking opportunities in dynamic environments to apply knowledge in ERP, SQL/PLSQL, IT governance, and agile methodologies, contributing to efficient, scalable solutions aligned with organizational objectives.

PROFESSIONAL EXPERIENCE

FUNCORSAN – Junior Systems Analyst

Aug 2023 – Present | Porto Alegre, Brazil

- **Specialized ERP Management:** Responsible for the maintenance and support of core Private Pension systems, ensuring the integrity of complex business rules and actuarial calculations.
- **Oracle Database (SQL Developer):** Developed complex queries, structured updates, and performed performance tuning to support management reporting and data governance.
- **Troubleshooting & Problem Resolution:** Identified and diagnosed critical technical failures, reducing system downtime through agile fixes and root-cause analysis.
- **Process Engineering & Improvements:** Implemented systemic enhancements that increased operational efficiency by automating manual routines and mitigating human error risks.
- **Provided technical support** for the migration of critical systems and databases from on-premises to a private cloud infrastructure.
- **Contributed to** architecture planning, risk assessment, security enhancements, and rigorous performance testing.
- **Ensured operational continuity**, regulatory compliance, and system stability throughout the entire transition process.
- **Quality Assurance (QA):** Planned and executed rigorous test plans, ensuring 100% data accuracy for audits and regulatory bodies.
- **Technical & Business Documentation:** Authored manuals and mapped processes to ensure knowledge retention and standardization of IT procedures.

Hardlink – Your IT Provider | Inside Sales Account Representative

Nov 2021 – Nov 2022 | Porto Alegre, Brazil

- **Consultative Hardware & Infrastructure Sales:** Managed prospecting and deal closure for high-performance servers, components, and IT equipment.
- **B2B Sales Cycle Management:** Managed an active corporate client portfolio, focusing on technology refreshes and specialized support service sales.
- **Service Contract Negotiation:** Developed complex commercial proposals, aligning client needs with company Service Level Agreements (SLAs).
- **Opportunity Identification (Upsell/Cross-sell):** Mapped technological gaps within the client base to offer complementary solutions and increase average ticket size.

Megaeng Engenharia de Instalações Ltda | Administrative Assistant

Apr 2012 – Mar 2013 | Novo Hamburgo, Brazil

- **Operational Workflow Management:** Implemented workflow improvements, ensuring 100% compliance with established deadlines (SLAs).
- **Administrative & Technical Support:** Managed back-office demands and maintained rigorous schedule control, ensuring the organization of 100% of the unit's technical documentation.
- **Logistics & Inventory Management:** Overhauled material and stock control, reducing inventory discrepancies by 30% through periodic audits.
- **Supply Chain Management:** Coordinated material logistics, optimizing inbound and outbound flows to ensure constant availability of critical items.
- **HR Support:** Assisted in the "Hunting" process (recruitment and selection), reducing the average time-to-hire by 20%.

CIGAM Software Corporativo Ltda | Account Manager

Sep 2010 – Aug 2011 | Novo Hamburgo, Brazil

- **Customer Success Management:** Managed a client portfolio to drive retention and ensure the optimal utilization of CIGAM ERP modules.
- **Service Order (SO) Management:** Monitored the SO lifecycle, reducing response times between issue identification and technical escalation.
- **Negotiation & Upselling:** Responsible for budget negotiations and commercial proposals, focusing on account expansion by identifying new business needs.
- **Training Consultancy:** Mapped technical gaps in the client base and recommended strategic training to increase user maturity and system autonomy.
- **Cross-departmental Liaison:** Acted as the primary focal point between clients and the development/support departments, ensuring SLA compliance and end-user satisfaction.

Dell | Inside Sales Representative

Oct 2008 – Sep 2010 | Porto Alegre, Brazil

- **Consultative IT Solutions Sales:** Focused on the hardware portfolio (desktops, notebooks, and servers) and value-added services, aligning technical specs with corporate needs.
- **Pre-sales Technical Support:** Provided specialized support to the sales team in configuring complex products, ensuring technical compatibility and solution viability.
- **Pipeline & Forecast Management:** Maintained rigorous control over the sales cycle and goal tracking, achieving high productivity and conversion rates.
- **Product Specialist:** Served as an internal reference for technical questions regarding the Dell ecosystem, assisting in team training on new launches and technologies.
